MFS Investment Management® claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. MFS Investment Management has been independently verified for the periods 1-Jan-1988 through 31-Dec-2023. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. GIPS® is a registered trademark of CFA Institute. Performance for periods less than one year are not annualized.

Total Gross of fee returns in GBP (includes both capital appreciation and reinvestment of income) are net of transaction costs, withholding taxes and direct expenses, but before management fees, custody and other indirect expenses. Typical separate accounts utilize 4:00 PM (London Time) foreign exchange rates; retail products will use rates deemed most appropriate for daily NAV per share calculations. The possibility exists for performance dispersion between otherwise similarly managed accounts and also with the benchmark.

Net of fee returns presented in this table are gross of fee returns reduced by management fees and performance fees if applicable (actual fees). For certain accounts where the actual fees are unavailable, the maximum applicable annual institutional separate account fees were applied. Total returns of the benchmark are provided for each period depicted, expressed in GBP. Source of Benchmark Performance: FACTSET ®.

Bloomberg Global Aggregate Credit - is a subset of the Global Aggregate Index, and contains investment grade credit securities from the U.S. Aggregate, Pan-European Aggregate, Asian-Pacific Aggregate, Eurodollar, 144A, and Euro-Yen indices. Credit securities are publicly issued corporate and specified foreign debentures and secured notes that meet the specified maturity, liquidity and guality requirements.

Composite Dispersion is measured by the asset-weighted standard deviation of gross of fees account returns for all accounts in the composite for the full period. For composites containing less than six accounts for the full period, dispersion is deemed not meaningful and is not presented. The three-year annualized ex post standard deviation measures the variability of the gross of fees composite returns and the benchmark returns over the preceding 36month period.

The MFS Global Investment Grade Credit Composite is a US Dollar based composite available globally. The regional composite depicted here was created on 27-Feb-2019 for presentation in the British market. Where appropriate, data has been converted to British Pound and the fees and breakpoints depicted are applicable to clients in this market.

Prior to 1-Jul-2020, the maximum institutional separate account fee charged for this product was 35 bps.

The composite asset minimum changed from 20MM USD to 25MM USD effective 1-Nov-2022.

Invest discre Invest outpe Index extens invest secur areater risk and volatilit currency, economic, industry, political, regulatory, geopolitical, or other conditions. Investments in debt instruments may decline in value as the result of, or perception of, declines in the credit quality of the issuer, borrower, counterparty, or other entity responsible for payment, underlying collateral, or changes in economic, political, issuer-specific, or other conditions. Certain types of debt instruments can be more sensitive to these factors and therefore more volatile. In addition. debt instruments entail interest rate risk (as interest rates rise, prices usually fall). Therefore, the portfolio's value may decline during rising rates.

Institutional Separate Accounts Fee Schedule

| Asset Breakpoints (GBP) | Fee |
|---------------------------------|----------|
| For Assets Up To 50 MM | 30 bp |
| For Assets From 50 MM To 100 MM | 25 bp |
| For Assets Over 100 MM | 22.50 bp |

Accounts are eligible for inclusion in the composite if they have assets greater than 25 MM USD (20 MM GBP). Accounts are included as of their first full month of performance.
