

Composite: MFS Fund of Funds - LifePlan 2055 Composite

Custom Benchmark: LP9 Blended Benchmark

Creation Date: 03-Jul-2019

Inception Date: 01-May-2019

Composite Description: The MFS Fund of Funds - LifePlan 2055 Composite includes all discretionary portfolios managed to the MFS Fund of Funds - LifePlan 2055 strategy. The strategy provides convenient access to a professionally allocated, broadly diversified, rebalanced portfolio of MFS funds in a single investment. The strategy is designed to provide diversification among different asset classes by investing primarily in mutual funds advised by MFS and seeks a high level of total return consistent with its asset allocation until the approximate retirement year in the strategy name; thereafter, the strategy will seek total return through a combination of current income and capital appreciation with a designated allocation to equities and fixed income. The asset allocation of the strategy will change over time and will become more conservative as the target date approaches. MFS' strategy of investing in underlying portfolios expose the portfolio to the risks of the underlying portfolios. Each underlying portfolio pursues its own objective and strategies and may not achieve its objective. In addition, shareholders of the portfolio will indirectly bear the fees and expenses of the underlying portfolios. MFS' assessment of the risk/return potential of asset classes, markets and currencies and its adjustments to the portfolio's exposure to asset classes, markets and currencies may not produce intended results and/or can lead to an investment focus that results in the portfolio underperforming other portfolios that invest in similar investment types or have similar investment strategies and/or underperform the markets in which the portfolio invests.

Institutional Separate Accounts Fee Schedule

Asset Breakpoints (CAD)	Fee
For Assets Up To 50 MM	45 bp
For Assets From 50 MM To 100 MM	42.50 bp
For Assets From 100 MM To 250 MM	35 bp
For Assets From 250 MM To 500 MM	32.50 bp
For Assets Over 500 MM	30 bp

Accounts are eligible for inclusion in the composite if they have assets greater than 1 MM USD (1.4 MM CAD). Accounts are included as of their second full month of performance.

Period	Composite and Benchmark Return %			Composite Dispersion	Accounts in Composite at End of Period	Annualized 3-Year Standard Deviation		Assets (CAD million)

MFS Investment Management® claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. MFS Investment Management has been independently verified for the periods 1-Jan-1988 through 31-Dec-2023. The verification report is available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

Past performance is no guarantee of future results.

Performance for periods less than one year are not annualized.

** Indicates partial period.

Total Gross of fee returns in CAD (includes both capital appreciation and reinvestment of income) are net of transaction costs, withholding taxes and direct expenses, but before management fees, custody and other indirect expenses. Certain institutional accounts hold Canadian trusts subject to custody and other indirect expenses. Typical separate accounts utilize 4:00 PM (London Time) foreign exchange rates; retail products will use rates deemed most appropriate for daily NAV per share calculations. The possibility exists for performance dispersion between otherwise similarly managed accounts and also with the benchmark.

Net of fee returns presented in this table are gross of fee returns reduced by management fees and performance fees if applicable (actual fees). For certain accounts where the actual fees are unavailable, the maximum applicable annual institutional separate account fees were applied.

Total returns of the benchmark are provided for each period depicted, expressed in CAD. Source of Benchmark Performance: FACTSET ®.

Custom Benchmark: S&P/TSX Capped Composite Index - Comprises the majority of market capitalization for Canadian-based, Toronto Stock Exchange listed companies with the relative weight by market capitalization of any single index constituent is capped at 10%. FTSE EPRA/NAREIT Developed Total Return - measures the performance of eligible real estate equities worldwide that generate a majority of their revenue and income through the ownership, disposal and development of income-producing real estate. MSCI World Index-Net Return - a market capitalization-weighted index that is designed to measure equity market performance in the global developed markets.

Custom Benchmark Methodology: As of 31-Dec-2024, the custom benchmark blend consisted of 10% FTSE EPRA/NAREIT Developed Total Return, 70% MSCI World Index - Net Return and 20% S&P/TSX Capped Composite Index. Rebalanced monthly. The historical components and weightings of the custom benchmark are available upon request.

Composite Dispersion is measured by the asset-weighted standard deviation of gross of fees account returns for all accounts in the composite for the full period. For composites containing less than six accounts for the full period, dispersion is deemed not meaningful and is not presented. The three-year annualized ex post standard deviation measures the variability of the gross of fees composite returns and the benchmark returns over the preceding 36-month period.

Prior to 1-Sep-2020, the maximum institutional separate account fee charged for this product was 50 bps.

On 23-Aug-2022, the custom benchmark blend was changed from 10% FTSE EPRA/NAREIT Developed Total Return, 60% MSCI World Index - Net Return and 30% S&P/TSX Capped Composite Index to as of 31-Dec-2021: 10% FTSE EPRA/NAREIT Developed Total Return, 70% MSCI World Index - Net Return and 20% S&P/TSX Capped Composite Index. The change is retroactive from inception of the composite.

The composite asset minimum changed from 5MM USD to 1MM USD effective 1-Nov-2022.

For purposes of GIPS compliance, the firm is defined as MFS Investment Management (MFS), which is comprised of Massachusetts Financial Services Company and MFS Institutional Advisors, Inc.
