

Composite: MFS Asia ex Japan Core Equity Composite

Benchmark: MSCI AC Asia ex Japan - Net Return

Creation Date: 13-Sep-2024

Inception Date: 01-Sep-2024

Composite Description: The MFS Asia ex Japan Core Equity Composite includes all discretionary portfolios managed to the MFS Asia ex Japan Core Equity strategy. The strategy seeks capital appreciation by investing primarily in a diversified portfolio of primarily Asia ex Japan securities. Stock markets and investments in individual stocks are volatile and can decline significantly in response to or investor perception of, issuer, market, economic, industry, political, regulatory, geopolitical, and other conditions. Because the portfolio may invest a substantial amount of its assets in issuers located in a single country or in a limited number of countries, it may be more volatile than a portfolio that is more geographically diversified. Emerging markets can have less market structure, depth, and regulatory, custodial or operational oversight and greater political, social, geopolitical and economic instability than developed markets.

Institutional Separate Accounts Fee Schedule

Asset Breakpoints (HKD)	Fee
For Assets Up To 50 MM	65 bp
For Assets From 50 MM To 100 MM	60 bp
For Assets Over 100 MM	55 bp

Accounts are eligible for inclusion in the composite if they have assets greater than 1 MM USD (7.8 MM HKD). Accounts are included as of their first full month of performance.

Derivative Exposure Disclosure

Certain accounts in this composite utilize derivatives for hedging, investment exposure, implementation efficiency, and transaction cost mitigation purposes. Derivative exposures can be volatile, used to take long or short positions, involve leverage (which can magnify gains or losses), and involve counterparty and liquidity risk. The table below displays the high, median, and low month-end derivative exposures over the last three years, when available or since inception if the composite is less than three years old. Derivative exposure of the account is calculated as the gross equivalent exposure of total net assets. The derivative exposures, displayed below, are the average exposures of the accounts that held derivatives.

Past performance is no guarantee of future results.

Performance for periods less than one year are not annualized.

** Indicates partial period. ^Indicates COMPOSITE and/or BENCHMARK is not presented because 36 monthly returns are not available.

Total Gross of fee returns in HKD (includes both capital appreciation and reinvestment of income) are net of transaction costs, withholding taxes and direct expenses, but before management fees, custody and other indirect expenses. Typical separate accounts utilize 4:00 PM (London Time) foreign exchange rates; retail products will use rates deemed most appropriate for daily NAV per share calculations. The possibility exists for performance dispersion between otherwise similarly managed accounts and also with the benchmark.

Net of fee returns presented in this table are gross of fee returns reduced by management fees and performance fees if applicable (actual fees). For certain accounts where the actual fees are unavailable, the maximum applicable annual institutional separate account fees were applied.

Total returns of the benchmark are provided for each period depicted, expressed in HKD. Source of Benchmark Performance: FACTSET ®.

MSCI AC Asia ex Japan - Net Return - a market capitalization-weighted index that is designed to measure equity market performance for both developed and emerging market countries in Asia, excluding the country of Japan.

Composite Dispersion is measured by the asset-weighted standard deviation of gross of fees account returns for all accounts in the composite for the full period. For composites containing less than six accounts for the full period, dispersion is deemed not meaningful and is not presented. The three-year annualized ex post standard deviation measures the variability of the gross of fees composite returns and the benchmark returns over the preceding 36-month period.
