

Composite: MFS Municipal Long Fixed Income Composite

Custom Benchmark: Bloomberg Municipal Index linked to previous benchmark

Creation Date: 31-Dec-1997

Inception Date: 01-Jan-1988

Composite Description: The MFS Municipal Long Fixed Income Composite includes all discretionary portfolios managed to the MFS Municipal Long Fixed Income strategy. The strategy seeks total return by investing primarily in high grade fixed income securities issued by municipalities and other entities exempt from Federal income tax with tactical allocations to non-investment grade fixed income securities exempt from federal income tax. Investments in municipal instruments can be volatile and significantly affected by adverse tax or court rulings, legislative or political changes, market and economic conditions, issuer, industry-specific (including the credit quality of municipal insurers), and other conditions. Because many municipal instruments are issued to finance similar projects, conditions in certain industries can significantly affect the portfolio and the overall municipal market.

Institutional Separate Accounts Fee Schedule

Asset Breakpoints (USD)	Fee
For Assets Up To 50 MM	25 bp
For Assets From 50 MM To 100 MM	20 bp
For Assets Over 100 MM	17.50 bp

Accounts are eligible for inclusion in the composite if they have assets greater than 20 MM USD. Accounts are included as of their second full month of performance.

Past performance is no guarantee of future results.

Performance for periods less than one year are not annualized.

Total Gross of fee returns in USD (includes both capital appreciation and reinvestment of income) are net of transaction costs, withholding taxes and direct expenses, but before management fees, custody and other indirect expenses. Typical separate accounts utilize 4:00 PM (London Time) foreign exchange rates; retail products will use rates deemed most appropriate for daily NAV per share calculations. The possibility exists for performance dispersion between otherwise similarly managed accounts and also with the benchmark.

Net of fee returns presented in this table are gross of fee returns reduced by management fees and performance fees if applicable (actual fees). For certain accounts where the actual fees are unavailable, the maximum applicable annual institutional separate account fees were applied.

Total returns of the benchmark are provided for each period depicted, expressed in USD. Source of Benchmark Performance: FACTSET ®.

Custom Benchmark: Bloomberg Municipal Index - a market capitalization-weighted index that measures the performance of the tax-exempt bond market. Bloomberg Custom Municipal 3 Year+ Bond Index - a market capitalization-weighted index that measures the performance of securities in the tax-exempt bond market with effective maturities of 3+ years.

Custom Benchmark Methodology: The benchmark was Bloomberg Custom Municipal 3 Year+ Bond Index from 1-Jul-1993 through 31-Dec- 2012 and on 1 -Jan-2013 the benchmark is linked to Bloomberg Municipal Index. The historical components and weightings of the custom benchmark are available upon request.

Some funds in this composite receive additional net income due to investments in certain inverse floating rate notes. This income is offset by an equivalent expense amount. These offsetting amounts have no performance impact and are not reflected in the performance depicted in this report. Composite Dispersion is measured by the asset-weighted standard deviation of gross of fees account returns for all accounts in the composite for the full period. For composites containing less than six accounts for the full period, dispersion is deemed not meaningful and is not presented. The three-year annualized ex post standard deviation measures the variability of the gross of fees composite returns and the benchmark returns over the preceding 36-month period.

Effective 1-June-2024, the composite name changed from MFS Municipal Plus Fixed Income Composite to MFS Municipal Long Fixed Income Composite.

Prior to 1-Dec-2017, the maximum institutional separate account fee charged for this product was 40 bps. From 1-Dec-2017 through 30-Jun-2020, the maximum institutional separate account fee charged for this product was 30 bps.

Prior to 1-Sep-2021 the minimum asset level for inclusion was 5.0MM USD.
