14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for							
the action MFS International Growth Fund is a multiple class open end Regulated Investment Company ("RIC) under Subchapter							
M of the IRC. The distinguishing feature of the v	arious classes is a differential allocation	of certain fund expenses. On May 11, 2012, all					
shares of Class W of MFS International Growth	Fund were converted into Class I shares	of the same fund in a tax-free exchange.					

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ►

The Class W shareholders' total basis in the Class I shares received is the same as their total basis in the old Class W shares. Per share, for each Class W share of MFS International Growth Fund (MGRWX) held, shareholders received 0.907759303 Class I shares of MFS International Growth Fund (MQGIX).

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ► The per share basis calculations are based on the respective net asset values of the Class W and Class I shares as of

the close of business on 05/10/2012. These net asset values ("NAVs") are determined based on the market value of the underlying securities held by the funds.

The NAV of Class W was \$22.93 per share and the NAV of Class I was \$25.26 per share on 05/10/2012. Thus the exchange ratio is 0.907759303 shares of Class I received for each share of Class W surrendered.
