

## MFS Investment Funds Offering Hedged Classes

The sub-funds of MFS Investment Funds listed below offer at least one unit class that is hedged into a currency other than the base currency of the sub-fund (a “Hedged Class”). Investors should be aware there is a risk that under certain circumstances, currency hedging transactions in relation to a Hedged Class could negatively affect the net asset value of the other unit classes (including unhedged unit classes) of the same sub-fund. For more information, see "Risk Factors – Currency Risk" in the prospectus of MFS Investment Funds.
