2. Identify Your Accounts

It is important that you provide both your fund and account numbers. They are printed on your Investment Summary statement. The fund number is the first four digits before the hyphen, and the account number follows the hyphen. Indicate the amount to be sold. If the amount requested exceeds the amount available, all shares in the account will be sold.

Please note that if you elect to redeem all shares from any of your MFS accounts, any existing Automatic Investment or Exchange Options on the redeemed accounts will be discontinued.

3. Cost Basis

To learn more about the different cost-basis methods please contact your financial/tax advisor. You may also visit mfs.com\TaxCenter.

If you have not made a cost-basis method election and did not notify MFSC of your elected method, MFSC has applied the fund's default method of Average Cost to your account. If you choose an override and you have Average Cost as the elected method or fund's default method on your account, your request will not be considered in good order and MFSC will not process your request.

Unless you direct MFSC in the Override Section below, the cost-basis method that is currently on your account will be used to deplete the shares for this transaction. If you have Specific Lot Identification as the cost-basis method on your account, you will need to complete the Specific Lot Identification Selection ("SLID") Form and submit it with this redemption request. If you do not submit the SLID form with your redemption request, MFS will deplete your tax lots in accordance with the secondary method selected on your account. You may obtain the Specific Lot Identification Selection Form on mfs.com under "Forms & Applications," select "Non-Retirement Accounts," and then "Sell Shares or Close an Account."

If you have a cost-basis method other than average cost on your account, you may override your account method by choosing another cost-basis method below to be applied to this transaction only (note this will not change the current method on your account. If you wish to change the current cost-basis method on your account you may do so via MFS Access or by completing and sending in a Cost Basis Selection/Change Form).

- First in, First out Last in, First out High cost Low cost Loss/gain utilization
 Specific Lot Identification – if this method is chosen you must submit a separate SLID Form
